SHITTS TONIC SYRUP.
For the Cure of Ague and Fever,
Or Chills and Fevers.

THE proprietor of this celebrated medicine justly claims for it a name which few other remedies ever offered to the public for the cure of ague, fever, and intermittent fevers. It is a simple, pure, and powerful medicine, and is the only one that has been found to be so successful in the cure of these diseases. It is a simple, pure, and powerful medicine, and is the only one that has been found to be so successful in the cure of these diseases.

I HAVE FOUND A TREASURE.

SO says the conservative who has been laboring under a distressing cough, cold, and fever, and who has found relief in the use of Dr. Williams' Pink Pills for Pale People. He writes: "I have found a treasure in the use of your medicine. It has cured me of a cough, cold, and fever, and I feel as well as ever."

Wilson's American History.

THIS is a new and complete work, containing a full and accurate history of the United States, from the first settlement to the present time. It is a work of great value, and is highly recommended by all who are interested in the history of our country.

MONSIEUR DE PHILOLOGUE—A writer in the Chronotype addresses the following pertinent inquiry to the editor:
Will you allow a tyro to ask you a question or two which we suggested by reading the Chronotype of the 21st inst.?
In one paragraph, not editorial, it is said, "Colonel Doniphan and a portion of his boys passed down the river Saturday." May I ask, sir, where the river Saturday is, it not being on my map?
To which the editor replies—
As to the "river Saturday," we marvel that our correspondent should not recognize the locality of a river which he crosses every week. It is one of the branches of the river time. We hear Col. Doniphan cross it or passed down it, it is not a question which we take much interest in, making it our principle to take the principal news—we find it.

There seems to be only one fact derived from Gen. Taylor's letters on the subject, and that is that he is an old man, and he is writing to his children. He is not a question which we take much interest in, making it our principle to take the principal news—we find it.

Naturalists inform us that there is a fly which lays its eggs in the body of other insects, and that the eggs hatch and the young fly feeds on the contents of the body of the parent insect. This is a very curious and interesting fact, and is highly recommended by all who are interested in the history of our country.
